Objectives

Motivated IT student and aspiring Full Stack Developer with strong foundations in frontend and backend technologies. Passionate about building responsive user interfaces, optimizing web experiences, and developing functional full-stack applications. Seeking opportunities to gain real-world experience, contribute to team projects, and grow through practical, hands-on development work.

Core Skills

- HTML, CSS, JavaScript (Experienced)
- Python, Java, C++ (Basics)
- Database Integration (Intermediate)
- WordPress E-Commerce (Intermediate)
- Prototyping & Technical Documentation (Experienced)
- VB.NET (Intermediate)
- PHP (Intermediate)

Experience & Projects

- Game Developer — Healthy Hero Game (VB.NET): Developed a 2D slicing game with interactive gameplay, animations, sound effects, and MySQL-based player progress tracking.
- Full-Stack Developer — JBC E-Commerce Website (2024): Built a responsive e-commerce website with product management, user authentication, and backend database integration.
- Frontend/UI Designer — Bantay Tubig Capstone Project: Designed an interactive water quality dashboard with charts and API-connected data visualizations.
- WordPress Developer — Drugstore E-Commerce Project: Customized WooCommerce to create a functional online store with product categories, checkout, and mobile-friendly design.
